D) D] Doctor training

Question reading-q2

What creates market failures in healthcare?

A) A) Information asymmetry

B) B) Perfect competition

C) C) Price transparency

D) D] Consumer choice

Question reading-q3

What remains a universal challenge?

A) A) Containing costs with quality

B) B) Increasing profits

C) C) Reducing staff

D) D] Building hospitals

Question reading-q4

What has increased expenditure pressures?

A) A) Technological advancements

B) B) Staff salaries

C) C) Building costs

D) D] Administration

Question reading-q5

What often provides better value?

A) A) Preventive care

B) B) Emergency services

C) C) Specialist treatment

D) D] Surgery

Question reading-q6

What exacerbates cost pressures?

A) A) Aging population

B) B) Young population

C) C) Migration

D) D] Urbanization

Question reading-q7

What presents particular pricing challenges?

A) A) Pharmaceuticals

B) B) Hospital beds

C) C) Doctor visits

D) D] Medical equipment

Question reading-q8

What has emerged as a crucial tool?

A) A) Health technology assessment

B) B) Patient satisfaction surveys

C) C) Cost accounting

D) D] Budget planning

Question reading-q9

What did the pandemic highlight?

A) A) Health security importance

B) B) Treatment effectiveness

C) C) Hospital capacity

D) D] Doctor availability

Question reading-q10

What are future challenges?

A) A) Managing digital health

B) B) Building more hospitals

C) C) Training more doctors

D) D] Reducing costs only

## Passage 2: The Economics of Education and Human Capital

Human capital theory conceptualizes education as an investment...

Question reading-q11

What does human capital theory conceptualize?

A) A) Education as investment

B) B) Education as cost

A) A) STEM disciplines

B) B) Arts degrees

C) C) Humanities

D) D] Social sciences

Question reading-q18

What has globalization created?

A) A) International student markets

B) B) Uniform curricula

C) C) Standardized testing

D) D] Global universities

Question reading-q19

What provides limited insights?

A) A) Standardized tests

B) B) Teacher evaluations

C) C) Student portfolios

D) D] Parent feedback

Question reading-q20

What continues to evolve?

A) A) Education economics research

B) B) School buildings

C) C) Teaching methods

D) D] Curriculum content

## Passage 3: The Economics of Technological Change and Automation

Technological change has been a primary driver of economic growth...

Question reading-q21

What has been a primary growth driver?

A) A) Technological change

B) B) Population growth

C) C) Resource discovery

D) D] Trade expansion

Question reading-q22

What can the transition period create?

A) A) Displacement effects

B) B) Immediate benefits

C) C) Equal distribution

D) D] Universal gains

Question reading-q23

What are recent advances automating?

A) A) Cognitive tasks

B) B) Physical labor

C) C) Creative work

D) D] Emotional tasks

Question reading-q24

What reflects technological trends?

A) A) Labor market polarization

B) B) Wage equality

C) C) Job security

D) D] Union strength

Question reading-q25

What do implications extend beyond?

A) A) Employment

B) B) Productivity

C) C) Innovation

D) D] Investment

Question reading-q26

What should education emphasize?

A) A) Skills complementing technology

B) B) Traditional knowledge

C) C) Manual skills

D) D] Routine tasks

Question reading-q27

What creates regional disparities?

A) A) Geography of technological change

B) B) Natural resources

C) C) Climate differences

D) D] Cultural factors

Question reading-q28

What do policy responses include?

A) A) Education reform

B) B) Tax cuts

C) C) Deregulation

D) D] Protectionism

Question reading-q29

What does innovation economics raise questions about?

A) A) Intellectual property

B) B) Tax policy

C) C) Monetary policy

D) D] Trade policy

Question reading-q30

What does understanding require analyzing?

A) A) Rate and direction of innovation

B) B) Only technological speed

C) C) Only economic impact

D) D] Only job creation

## Listening

### Part 1: Discussion about monetary policy challenges

Question listening-q1

What are the speakers discussing?

A) A) Fiscal policy reforms

B) B) Monetary policy challenges

C) C) Trade agreement negotiations

B) B) Strict inflation focus

C) C) Laissez-faire policy

D) D] Protectionist measures

## Part 2: Lecture on digital currency impacts

Question listening-q11

What do CBDCs represent according to the speaker?

A) A) Minor technical upgrade

B) B) Fundamental transformation

C) C) Temporary trend

D) D] Theoretical concept

Question listening-q12

How do CBDCs differ from cryptocurrencies?

A) A) They are decentralized

B) B) They are sovereign currencies

C) C) They are privately issued

D) D] They are not digital

Question listening-q13

What could CBDCs enhance?

A) A) Payment system efficiency

B) B) Cash usage

C) C) Bank profits

D) D] Inflation rates

Question listening-q14

What significant questions do they raise?

A) A) Privacy and stability

B) B) Only technical issues

C) C) Only economic growth

D) D] Only bank profits

Question listening-q15

What do design choices involve?

A) A) Critical trade-offs

B) B) Simple decisions

C) C) Technical details only

D) D] Political considerations only

Question listening-q16

What could retail CBDCs disrupt?

A) A) Traditional banking

B) B) Stock markets

C) C) International trade

D) D] Government spending

Question listening-q17

What might be reduced for commercial banks?

A) A) Role in payment systems

B) B) Regulatory oversight

C) C) Customer service

D) D] Branch networks

Question listening-q18

What could wholesale CBDCs improve?

A) A) Settlement efficiency

B) B) Consumer lending

C) C) Bank profits

D) D] Employment

Question listening-q19

What introduces additional complexity?

A) A) International dimension

B) B) Technical specifications

C) C) Public opinion

D) D] Bank resistance

Question listening-q20

What will successful implementation require?

A) A) Careful consideration

B) B) Rapid deployment

C) C) Minimal testing

D) D] Limited consultation

## Part 3: Discussion about climate economics

Question listening-q21

What does climate economics require reconsidering?

A) A) How we measure success

B) B) Interest rate policies

C) C) Trade agreements

D) D] Banking regulations

Question listening-q22

What represents false progress according to the economist?

A) A) GDP growth with environmental damage

B) B) Slow economic growth

C) C) High unemployment

D) D] Low inflation

Question listening-q23

What does the industry representative emphasize?

A) A) Practical transition challenges

B) B) Immediate action regardless of cost

C) C) Abandoning all industry

D) D] Waiting for perfect solutions

Question listening-q24

What far exceeds the cost of action?

A) A) Cost of inaction

B) B) Cost of regulation

C) C) Cost of innovation

D) D] Cost of monitoring

Question listening-q25

What can drive efficient emission reductions?

A) A) Carbon pricing

B) B) Voluntary measures

C) C) Public awareness

D) D] Technology bans

Question listening-q26

What is described as economically attractive?

A) A) Green investment

B) B) Fossil fuels

C) C) Traditional manufacturing

D) D] Resource extraction

Question listening-q27

What is crucial for reducing transition costs?

A) A) Technological innovation

B) B) Government control

C) C) Market forces

D) D] International aid

Question listening-q28

What deserves careful attention?

A) A) Distributional impacts

B) B) Corporate profits

C) C) Political popularity

D) D] Short-term gains

Question listening-q29

What is essential for addressing climate change?

A) A) International cooperation

B) B) National isolation

C) C) Regional competition

D) D] Bilateral agreements

Question listening-q30

What does solving climate challenge require?

A) A) Integrating environmental considerations

B) B) Focusing only on economics

C) C) Ignoring costs

D) D] Prioritizing growth

## Part 4: Lecture on global economic governance

Question listening-q31

What is increasingly strained according to the lecture?

A) A) Global economic governance

B) B) National governments

C) C) Corporate structures

D) D] Financial markets

Question listening-q32

When were current institutions designed?

A) A) After World War Two

B) B) During Cold War

C) C) In 19th century

D) D] In past decade

Question listening-q33

What has created tensions in international institutions?

A) A) Shifting economic power

B) B) Technological change

C) C) Environmental concerns

D) D] Cultural differences

Question listening-q34

What has digital transformation created?

A) A) New governance gaps

B) B) Perfect solutions

C) C) Simple regulations

D) D] Unified systems

Question listening-q35

What do climate change and pandemics highlight?

A) A) Need for global public goods

B) B) National sovereignty

C) C) Market efficiency

D) D] Individual responsibility

Question listening-q36

What is fragmenting the trading system?

A) A) Geoeconomic competition

B) B) Free trade agreements

C) C) Technological progress

D) D] Environmental standards

Question listening-q37

Who faces particular challenges?

A) A) Developing countries

B) B) Developed countries

C) C) International organizations

D) D] Multinational corporations

Question listening-q38

What do reform proposals include?

A) A) Updating quota systems

B) B) Abolishing institutions

C) C) Reducing cooperation

D) D] Increasing barriers

Question listening-q39

What does achieving reform require?

A) A) Navigating divergent interests

B) B) Simple majority voting

C) C) Ignoring differences

D) D] Imposing solutions

Question listening-q40

What will future governance likely involve?

A) A) More pluralistic system

B) B) Single world government

C) C) Complete decentralization

D) D] No cooperation
